*Dear Mr Dhananjay Mishra*

1. I am writing this in connection with the work undertaken by M/s Yeoman Marine Services Pvt Ltd during the maiden re-tubing of both main boilers of INS Jalashwa.
2. While the prestigious project had many unknowns at the onset, the professional commitment shown by your firm in partnering with the IN in meeting this challenge has been of a very high order. Each ambiguity during the work execution was dwelled upon in detail, with the intangibles having been overcome promptly.
3. A large measure of the credit for the timely execution of the project can be attributed to the close monitoring and coordination by Cdr Alex Oommen (Retd), and Lt Cdr Sameer Zavar (Retd), who maintained a continuous liaison with our teams on ground. Issues that could have jeopardised project execution were quickly brought on track through timely intervention of the OEM consultant from M/s Foster Wheeler.
4. I also take this opportunity to commend the excellent workmanship by your technical partners in boiler tube renewal; specifically the contribution made by Mr Ranganath Raskar in providing a viable option for modifying the super-heater manifold and designing the intermediate tube pressure testing jig. The valuable inputs by Mr Amol Dhoble during refractory erection and curing were amply validated during steaming trials.
5. The time bound completion of the project including supply of MIL grade refractory materials culminated in boilers steaming at full power-bearing testimony to the ability of Indian industry to rise to the challenge of the 'Make in India' campaign. We look forward to your firm partnering with the IN, with similar enthusiasm, in coming years.

*With warm regards,*

*Yours sincerely,  
Ranjana*
