TO WHOMSOEVER IT MAY CONCERN

Dear Mr Mishra,

1. This is to place on record that the re-tubing of both main propulsion Boilers of INS Jalashwa (make M/s Foster Wheeler, D-Type) was carried out by M/s Yeoman Marine Services, Mumbai. The entire scope of work of re-tubing including the refractory work, controls were carried out in a professional manner and the setting to work and complete operationalisation of the boilers was completed well within in the given time frame.
2. The trials and proving of Boilers to their full power was achieved and the professional approach of the firm's Engineers and Supervisors during the course of re-tubing made it possible to complete the maiden activity in time.
3. I wish the M/s Yeoman Marine Services; its management and staff all the best in their future endeavours.

Although the work was done for the first time, it was outstanding, completely professional and ahead of time..

wishing you & your team the very best...

Regards
